**Pack Like a Pro.**

Expert advice from designer Diane von Furstenberg...

"I'm the best packer in the world," says Diane von Furstenberg. "When you approach packing, you can bring everything you need." She has invented the ultra-packable suitcase, inspired by travel. The Torridge suitcase, designed by Furstenberg, is available in London. For more information, visit www.diane.com.

**Go lightly.**

"I always have the lightest suitcase," Von Furstenberg has one trick for packing couture: "Roll up ball gowns and put them in stockings. You can actually squeeze them down to the shape of a salami. They are perfect and unwrinkled when you unpack them." Waxed-canvas trolley, \$500.

**Include
of color.**

To spruce up your wardrobe, add bold colors and patterns, like a scarf. "Paying attention to small details, like a scarf or a bracelet, allows you to mix up your looks and stretch your outfits out over several days." Silk scarf, \$165.

Waxed-canvas trolley, \$500.
